IBEW Local 48 Policy Against Recording Meetings

IBEW Local 48 has a policy expressly forbidding any recording of any IBEW Local 48 meetings. This includes audio recordings, visual recordings, and recordings made that include both audio and visual elements, and made with any device, including but not limited to mobile phones, tape recorders, video recorders, and the devices and software used to simulcast the General Membership Meeting to other locations.

Although both IBEW Local 48 and the IBEW International Office value membership communication, there are those that wish to harm the IBEW and could do so by gaining access to sensitive information addressed at IBEW Local 48 meetings. Additionally, Local 48 believes it is important that members feel free to speak at IBEW Local 48 meetings, and some may feel stifled or inhibited knowing that a recording is being made.
